

## VAN DE STADT 48 CASCO

2002 | 14,70 m | gfk

### BROKER'S COMMENTS

"A rare opportunity to acquire a fully customized Van de Stadt 48 model Tasman hull. She was built complete with integrated tanks and with the use of moulds to avoid the need to make changes to the hull or deck along the way. It is a raised decksaloon with an interior on several levels. Once ready it will be a pleasure to live on board, something seriously underestimated on long distance passages. Due to the different levels a minimum headroom is always available."
