LONG RANGE EXPEDITION ICEBREAKER

KOMMENTARE DES MAKLERS

Icebreaker "Thorbjorn", build at the Svendborg Shipyard in 1980 with the goal: build an Icebreaker with the best of equipment of the time. Ice Class 1A, world wide trading area A2. Large aftdeck of around 250 sqm. Accomodation for 32 persons in 26 single and three double cabins, cabins with private bathrooms. 2 B&W Alpha diesel engines, bowthruster, three generators. "Thorbjorn" is constandly maintained by a full time crew, ready to go. Also very interesting ship for Icebreaker cruises, conversion to a mega yacht, hotel ship, etc

Pieter Bosma

TECHNISCHE DATEN
