## KOMMENTARE DES MAKLERS

The Burmester is a timeless 50-foot classic sailing yacht from the renowned Burmester yard designed by Abeking & Rasmussen, celebrated for their craftsmanship, precision engineering, and elegance afloat. Built in fine mahogany over oak frames, she represents the golden age of yacht building a perfect balance of beauty, performance, and seaworthiness. Lovingly maintained and carefully refitted between 1990 and 2000.

*Stein Dubbeldam*

## Historical Background

The “Windfall” yachts were a fleet of more than 100 high-quality wooden offshore vessels, allocated to the Allied forces as reparations from Germany following the Second World War. Over the next 15 to 20 years, many Royal Navy personnel were introduced to offshore sailing through these vessels.

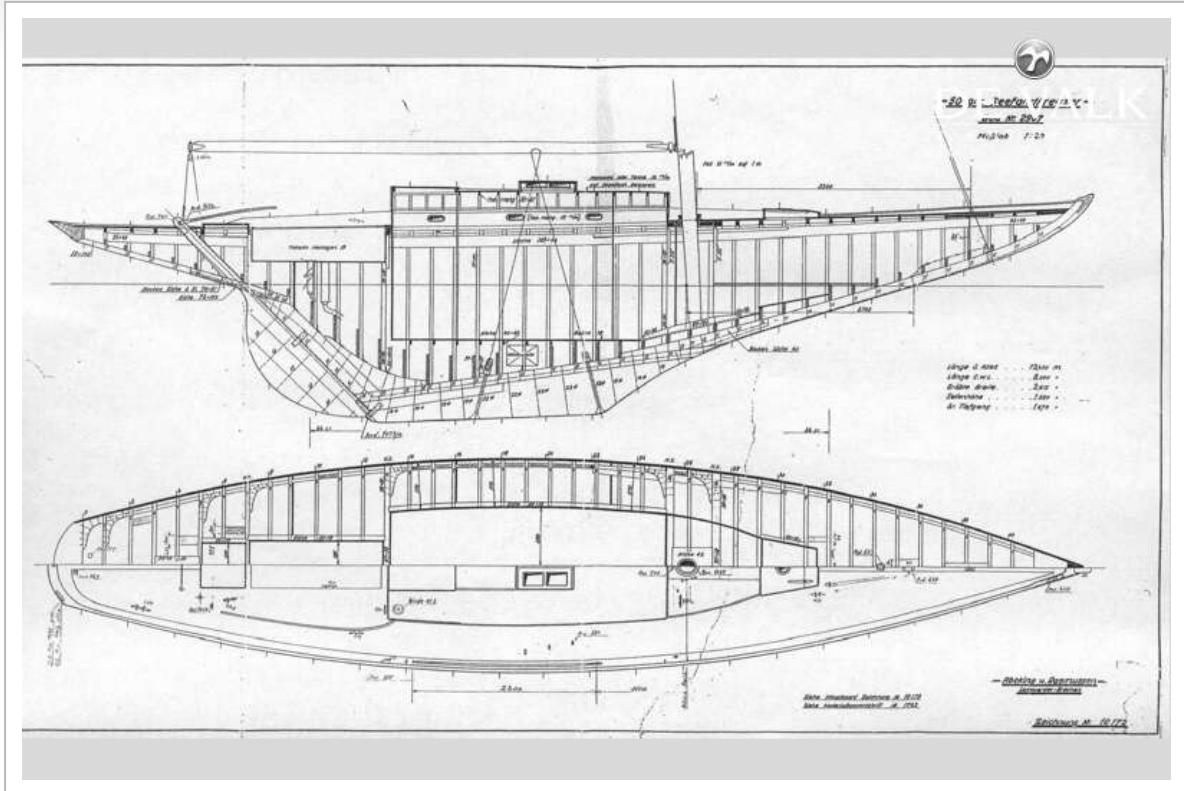

At the end of World War II, a large number of German government-owned yachts were distributed among the victorious nations, with many entering service in British yacht clubs. These vessels became known as the “Windfalls” and were widely used for sail training and adventurous expeditions, particularly in the Baltic Sea.

“Sylena” (V89), originally named “Seahorse” (her German name) and identified by her original sail number V89, is one of these historic yachts. Her story, along with those of other Windfall vessels, is documented in Michael Gudmore’s book *The Windfall Yachts*.

Today, SYLENA remains one of the very few surviving Windfall yachts still actively sailing — a rare and significant piece of maritime history.
