

NAVY TENDER

2012 | 16,80 m | steel

BROKER'S COMMENTS

"Build in 1939 for the German Navy, in the beginning of the present century completely stripped, until bare ribs and newly build up including: new skin, systems, engine's, superstructure, and since 2012 back sailing again. She has been constructed in way where comfortable living, traveling through the canals from Europe was the plan. Unfortunately the owner has to change his plans. She is ready to go, completely checked and freshly varnished. Just bring food and clothing and start exploring
