

SCORPION 50

2023 | 14,50 m | aluminium

BROKER'S COMMENTS

"This Scorpion Yacht is handcrafted and has a modern open design with a large lounge area. The outboard engines are hidden beneath the sunbed, allowing the boat to be beached. Each Scorpion Yacht is built with aluminium making it 50% lighter, so less petrol is needed, not flammable and it lasts twice as long compared to fibre glass. Scorpion built yachts with low cost of ownership and simple technique and very easy to maintain. The engines run 100 hours with still one year warranty
