## BROKER'S COMMENTS

The Breehorn 37 is known for its robust sailing characteristics and elegant lines. This example is well equipped and neatly maintained. The shallow keel greatly increases the sailing area. Since it has a steering wheel and a retractable bow thruster, it is even easier to handle. From April 1 she will be ready for the new sailing season, so make an appointment quickly via our office in Sint Annaland, so you can take a look on board.

<b>More info on hull</b>	Hull and deck are made of glass fiber reinforced polyester. The gelcoat and first two layers of polyester are from ISO N.P.G. quality. The hull is sandwich constructed above the waterline with PVC foam of 20 mm thickness. This also applies to the deck. The keel is attached with stainless steel bolts that are welded to a stainless steel frame in the keel. The keel is laminated to the hull with a double layer of polyester. The rudder is laminated around the aluminium rudder stock with three pairs of welded springs and filled with foam. The rudder stock is mounted in three places and is protected by a full-length skeg.
<b>Extra info</b>	2x Small cockpit locker and a large cockpit locker with a double floor (which is also accessible from the bathroom and equipped with light).
<b>Extra info</b>	The boat is being sold by the first owner. The boat was maintained by the Breehorn shipyard (until 2022) and in 2022 and 2023 at the Breskens shipyard and has been inside a winter storage at these yards annually.
