VAN DE STADT SAMOA 48

BROKER'S COMMENTS

Conceived and developed in the early nineties, Van de Stadt Design introduced a very successful range with the Caribbean, the Samoa 47/48, the Tasman and the Tonga models. All fast passage makers with optimum handling, performance, safety and reliability as design markers. Features that still are important today when you want to do some serious cruising. This Van de Stadt 48 Samoa by Aluboot NL has the extended stern section for more stowage space and added safety. With her three cabin layout very much suited for family cruising. Fourth owner since 2007, it shows how much she is appreciated.
