VAN VOSSEN TENDRA EVO 850

BROKER'S COMMENTS

You have the possibility with this Dutch build Evo 850 to sail open and fast, but also to stay overnight due to a good sized owners cabin and a fixed toilet. With his very good stability at medium and high speeds, it is the perfect way to explore more waters like the bigger lakes or shallow coastal waters. With his powerful Steyr inboard diesel engine of 250 hp and his big capacity fuel tank, distances aren't that far away anymore thankfully to his top speed of 60 km/h! The yacht is build with a high quality of aluminum and with the use of imitation teak, this yacht has low maintenance costs.
