AQUASTAR 38

BROKER'S COMMENTS

The Aquastar 38 of 2006 is a semi-displacement vessel, which makes her very seaworthy. With a Caterpillar of 510 hp you will be quickly at your destination if necessary. Once you have arrived at your destination, you can easily maneuver to your berth with the bow and stern thruster with remote control. The owner has renewed a lot in the past years, full LED lighting, new upholstery, teak wooden floor and even a new wallas diesel hob. Every year the ship has been stored in heated winter storage with all the associated maintenance. We would like to receive you in Loosdrecht to view the 38.

Arjen Hoeksma
