MACGREGOR 65 PILOTHOUSE

BROKER'S COMMENTS

The Mac Gregor 65 is one of the fastest production yachts ever built. The narrow entry and a deep V-shaped forefoot allows her to slice through the waves. A relatively small, easily handled sail plan will drive the boat at superior speeds. At 15 knots she can sail at over 11 knots, and speeds of over 25 knots can be reached. A very functional and elegant atmosphere below decks. Two cabins, a master and forward cabin, both equally large and comfortable with their own private heads, a comfortable salon, a large galley and a pilot house with inside navigation and steering station.
