BROKER'S COMMENTS

The NED70 is a unique one from the Dutch yachting industry. She was designed by Vripack with the purpose of building a fast yacht with a shallow draught. This allows the yacht to go to places where a yacht of this size could usually never go. She is more than fully equipped to make long trips both in cold and warm areas of the world. With her beautiful lines, this ship is a very welcome guest in every harbour. The ship can be visited in our sales office Loosdrecht. You should absolutely not miss this wonderful, unique opportunity!
