TP MARINE 880 PROFESSIONAL OFFSHORE RIB

BROKER'S COMMENTS

This RIB is built for the professional market and CE Category A certified. Due to the Jack Shaft Kit, the engine is further forward, which improves weight distribution and sailing characteristics. The deep V-hull makes this RIB very manoeuvrable, stable and seaworthy, even in bad weather conditions. The hull is fully equipped with a heavy-duty Hypalon tube (locally extra reinforced and almost completely filled with foam). The floor is equipped with heavy-duty anti-slip. This RIB is equipped with First-class components, equipment and a self-aligning tilting system.
