BROKER'S COMMENTS

Boréal is not afraid to forge its own path and its distinctive aluminium cruising yachts have gained a strong reputation over the past 15 years. The latest model, the Boréal 47, is a shoal draught expedition yacht that can take you anywhere on the planet. And as we were to discover, it is responsive and fun to sail. The Breton yard's success is based on a huge amount of details. Founder and naval architect Jean-François Delvoye based the Boréal concept on first hand experience gained in all conditions. This unit is not far from being new. 2023 have been invested enormously.

Hartmut Ross
