BROKER'S COMMENTS

"The Aluminium JFA 50 is built at JFA Concarneau in France and designed by Jean Berret and Olivier Raccoupeau. She is a fast going low weight cruiser, Fully equipped and ready for long distance sailing. The interior is spacious, clean, and offers lots of light. This JFA can be sailed easily short-handed or with family and friends. Many investments has been done by the current owner to keep her in a good condition and ready to go. The boat is now located in Denmark where she can be visited on appointment."
