## BROKER'S COMMENTS

"Arctic passion, Caribbean or just a daytrip? Just live your dream; Audax is mainly designed for off grid destinations anywhere in the world. Look at the special bow design to break ice. Check the easy access and workspace over deck. Inside a bright, cosy and perfect warm/cold climate isolated, spacious design(ed) interior. Workbench aft completes your independency. This super strong, impressively built vessel is highly recommended for the adventurous sailor, but can take the family out as well. If you look for the difference ..... this might be your new yacht!"
