## BROKER'S COMMENTS

The Schokker 1600 'Batavier' is a yacht with the appearance of a traditional Dutch fishing vessel, but built according to modern techniques! Major advantages: doesn't rust & finished with brass & stainless steel, so ideal for salt water cruising. A large cockpit, very spacious saloon and galley and up to 10 berths, assures her owner and crew a comfortable staying for both short trips or longer voyages. Even with a small crew, she is very easy to sail and manoeuvre. The current owner recently spent a fortune on maintenance & upgrades, so 'Batavier' is really turn key ready for new adventures.

*Nick Lanting*

## SPECIFICATIONS

Dimensions	15.65 x 5.85 x 1.10 (m)	Builder	Jachtwerf Langman, Nijkerk
Built	1992	Cabins	4

<b>More info on hull</b>	The entire ship including the hull was checked for water ingress in 2024, all (screw) holes were then drilled out, filled and neatly finished.
<b>More info on paintwork</b>	After everything on the exterior of the boat (deck fittings, winches, hatches, both leeboards and brass) had been dismantled in 2024, the entire woodwork (the superstructure, the toerails, the cockpit including entrance doors and sliding hatch, the mast base, the two leeboards, the rudder, the stern and all bollards) stripped, everything sanded bare (up to 400 grit). Then 8 layers of two-component lacquer, 5 layers of varnish and 2 layers of finishing lacquer were applied (15 layers in total). In addition, all white parts of the exterior have been sanded and varnished. Also new name plates have been made and installed.
<b>Extra info</b>	New in 2015 : 2 x Teak leeboard with manual brass winches and Dyneema rope. New clamping fingers were applied on both leeboard suspensions in 2024. There are covers for both leeboards.
<b>Extra info</b>	The diesel day tank can be filled with either a manual pump or an electric pump.
<b>Extra info</b>	The ship was built using the wood epoxy method. The core consists of 5 cm thick Iroko wood, which is a durable and rot-resistant hardwood.
