GREENLINE 40

BROKER'S COMMENTS

The Greenline 40 is a modern, spacious motor yacht known for its innovative design and technologies. In this model, the electric motors have been removed, leaving it powered solely by two Volkswagen diesel engines. Additionally, the throttle controls have been replaced with a Hydronautica model, which includes an integrated joystick and remote control, making maneuvering much easier. This Greenline features a very spacious layout and a galley that can be extended into a bar. The Greenline is available for viewing by appointment.

Sjoerd Paddenburg
