BROKER'S COMMENTS

New deck, machinery, electrics/electronics, plumbing, anchors and chain, windlass, bulbous bow, and furnishings. Originally a high-seas commercial trawler launched in 1973, she was purchased as an empty hull with integrated fuel tanks but without deck, superstructure, or machinery - allowing for a complete keel-up refit. This refit was completed in 2010, with minimized future maintenance as a guiding principle.
