BROKER'S COMMENTS

This impressive Centurion 49 was designed by Edward Dubois and hand built in fiberglass by the highly reputable Wauquiez yard in France. She was constructed with strong internal framing and longitudinal reinforcements designed for comfortable long-distance sailing. She is a true performance blue water cruiser superbly equipped with extensive upgrades (all documented) and a huge inventory. The current owner purchased her in 2009 and she is now ready to take her next owners on their next adventure.
