AMEL SUPER MARAMU 2000

BROKER'S COMMENTS

This Amel Super Maramu 2000, hull number 235 (christened "Coque en Ré), holds a special historical significance in the shipyard's history, as, according to ownership documents, it was the very first model built in the modified "2000" series. It was personally presented by company founder Henri Amel as a token of appreciation to his long-time employee, Jacqueline Fraisseix. Later, it saw long-distance service, equipped with, among other things, modernized navigation systems. Very well equipped and maintained. Available in South Spain.
