REINKE 12M

BROKER'S COMMENTS

The Reinke 12 M represents a singular chapter in German maritime history. Conceived by the prolific German naval architect Kurt Reinke, the vessel was engineered specifically for his "Hobby Design" (HD) self build program. This Reinke 12 M is characterized by her heavy displacement, multichine metal hull, and single fin keel for the casual weekends or but for high latitude explorers and long-term liveaboards who value ultimate structural survivability over dockside elegance. Equipped for a circumnavigation in high quality and ready to go. Available in South Spain
