

MALO 140

1978 | 14,02 m | aluminium

BROKER'S COMMENTS

""Malle", one of only 2 aluminium Malö yachts ever built. The ketch-rig and semi long keel configuration makes her ideal for blue water cruising, something her present owner has done by taking her to Western Africa aswell as the East Coast of South America. He finished his Atlantic tour in Holland after being in the Caribbean in 2003."
