

HALLBERG RASSY 312 SCAND

1988 | 9,42 m | polyester

BROKER'S COMMENTS

"The Hallberg Rassy 312 Mk II Scandinavia is a very popular model, built during 1979 - 1993. Totally 690 boats were built. 485 units were built of the MK I version. From 1986 the HR 312 MK II was built, with the windows in the superstructure instead of the hull. Constructed with high grade materials. Her warm and cosy interior provides lots of comfort. Since the owner has bought a bigger yacht with us we can now offer this very well maintained yacht. "
