Extra info	In 2024 the port side diesel tank was professional cleaned and 2 inspection hatches were mounted on the side of this tank. This tank is filled with approx. 550 litre diesel. The starboard diesel tank wasn't cleaned, because there is already enough diesel in the port side tank. The valves from the starboard side tank are closed and hasn't been used, but still filled up with approx. 550 litre diesel. The costs for having 2 inspection hatches mounted on the the side of the starboard tank and to have it cleaned would be approx. € 2.000,-.
