BOCXE 21M MOTORYACHT

VAN DE MAKELAAR

The Bocxe 21M is designed as a hybrid between a houseboat and a motor yacht, the result is a spectacular yacht with a spacious interior. The yacht is built in 2015 by Shipyard Bocxe Delft and designed by Jurrian Knijtijzer. The complete calculation to install the interior, equipment and isolation is already done and available on request. An indication of the complete costs is around € 225.000,-, depending on the quality of the materials. The electric drive, a rudder propeller from Kalkman with 45 kW, is powered by a 60,5 kW John Deere generator.

Arjen Hoeksma

SPECIFICATIES
