CHRIS-CRAFT ROAMER EXPRESS DELUXE

ALGEMEEN

Model	CHRIS-CRAFT ROAMER EXPRESS DELUXE
Type	motorjacht
Lengte (m)	11,00
Bouwjaar	1961
Gebouwd door	Chris-Craft
Land	Verenigde Staten
Romp materiaal	staal
Romp kleur	White
Huiddikte romp (mm)	3-4 mm at 50 points measure.
Dek materiaal	Teak, vaccumglued on steel deck, 2019
Afwerking dek	Teak
Afwerking opbouw	Steel
Antifouling (jaar)	2024, Blastered, 4 layers epoxi + 2 layers antifouling.
Brandstoftank (liter)	125 litre
Brandstoftank 2 (liter)	125 litre
Drinkwatertank (liter)	140
Vuilwatertank (liter)	175

ACCOMMODATIE

Hutten	1
Slaapplaatsen	4
Achterdek	ja
Salon	ja
Verwarming	Electric when on shore power.
Keuken	ja
Koelkast	New
Toilet	ja

MOTOR(EN)

CHRIS-CRAFT ROAMER EXPRESS DELUXE

Aantal motoren	2
Merk	Mercuriser
Type	383, 6.3 litre
Pk	350
kW	257.60
Brandstof	benzine
Geïnstalleerd in jaar	2020
Aandrijving	schroefas
Accu's	ja

UITRUSTING

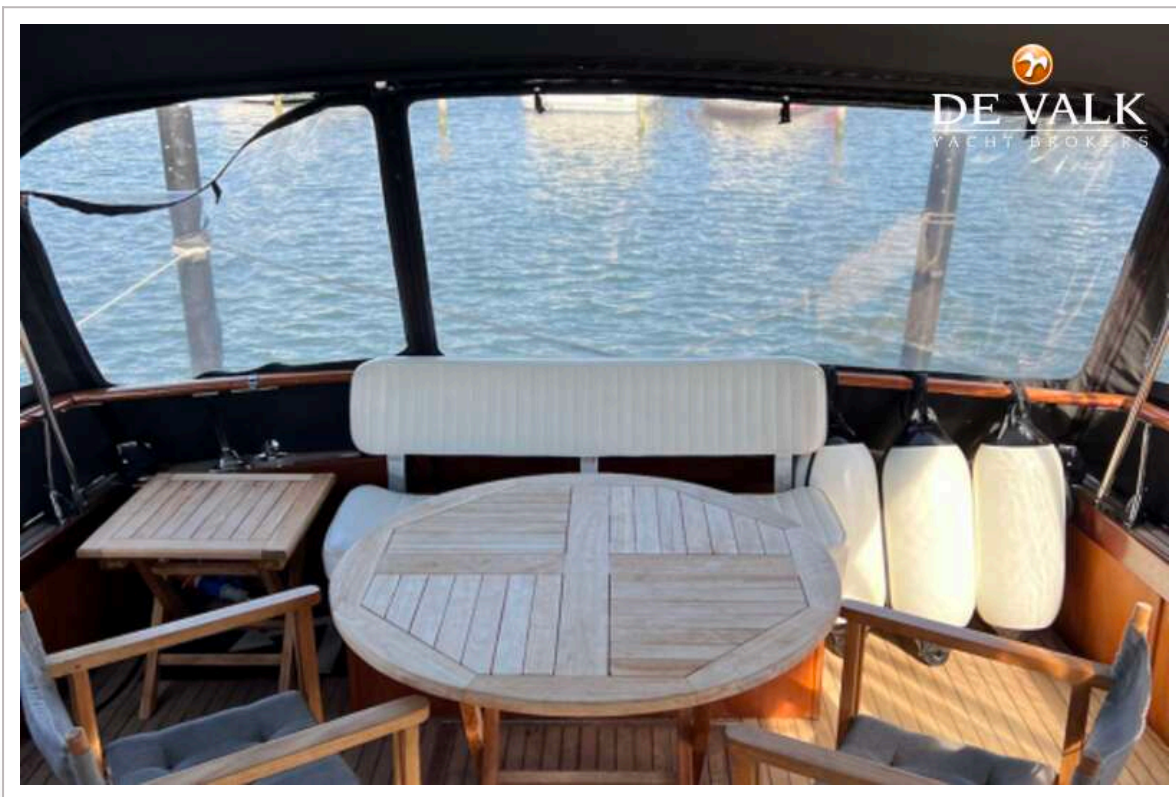

Kuip tent	ja
Kuipstoelen	ja
Anker	ja
Anker 2	ja
Hoorn	ja
Stootkussens	With fender holders
Landvasten	ja
Reserve onderdelen	Spare parts for engine service, special lamp bulbs
Brandblusser	Halon
Extra info	Extra shaft gasgets as spare parts

FIRST BRILLIANT NEW ROAMERS FOR '57

▲ The newly-arrived Roamer 25 (shown above) is the latest addition to the Roamer line of motor yachts. From the tip of its hull to the top of its cabin, the Roamer 25 is built with steel, and is completely welded to the hull of a Roamer, with the steel hull and lower portion of a Roamer. The Roamer 25 is built in a way that it is completely welded to the hull of a Roamer, with the steel hull and lower portion of a Roamer. The Roamer 25 is built in a way that it is completely welded to the hull of a Roamer, with the steel hull and lower portion of a Roamer.

◆ The larger Roamer 35 (shown above) is completely welded to the hull of a Roamer, with the steel hull and lower portion of a Roamer. The Roamer 35 is built in a way that it is completely welded to the hull of a Roamer, with the steel hull and lower portion of a Roamer. The Roamer 35 is built in a way that it is completely welded to the hull of a Roamer, with the steel hull and lower portion of a Roamer.

ADVANCED ROAMER ENGINEERING BRINGS

DE VALK
YACHT BROKERS

YOU CAN DEPEND ON STEEL

SAFETY FIRST—No matter what the weather, or how rough the sea, you enjoy full confidence in Roamer's rigid steel hull. This water-tight, electrically welded unit of finest hi-tensile special alloy steel is your protection against leaks and severe damage from impact—your assurance of safer, smoother sailing.

SWIMS LIKE A FISH—In even the roughest going, your Roamer handles with ease. Its low center of gravity lets you ride lower in the water and knife through waves with a minimum of tossing. Roamer's steel hull gives you extra speed, too. Its Hull-Flex design insures superb performance in ordinary weather and unusual stability and smoothness in rough seas.

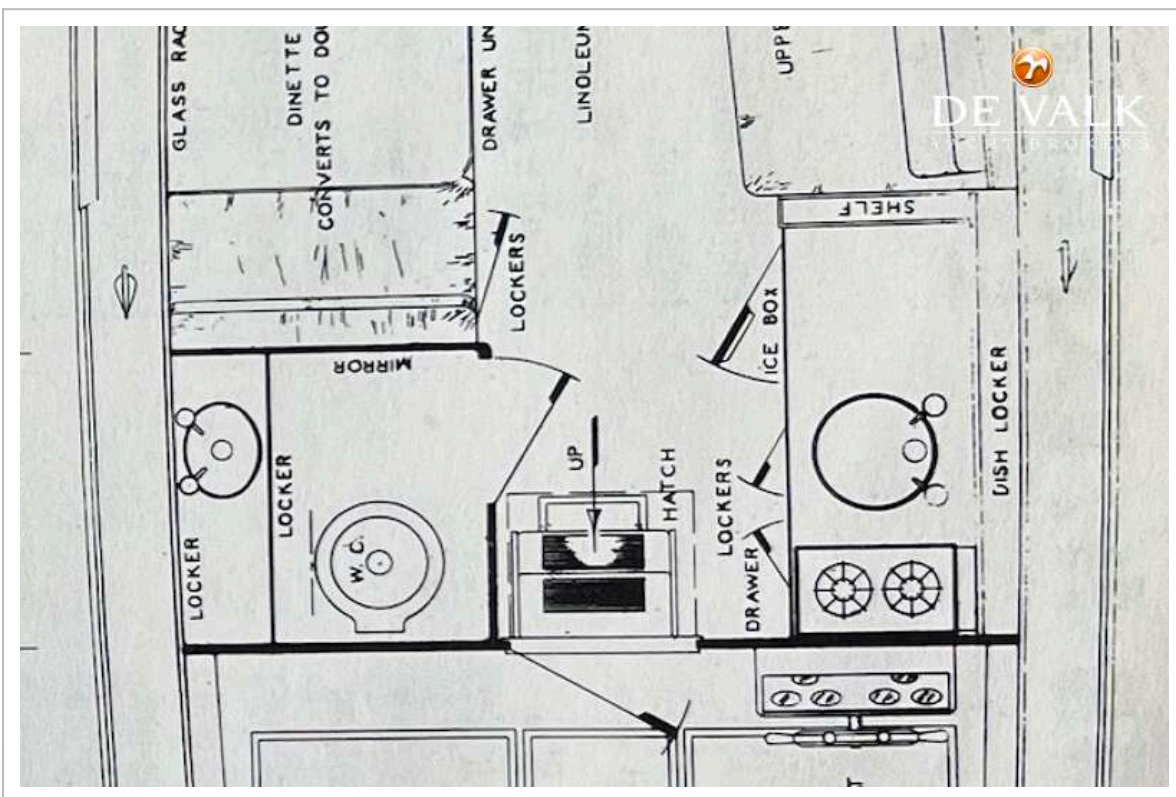

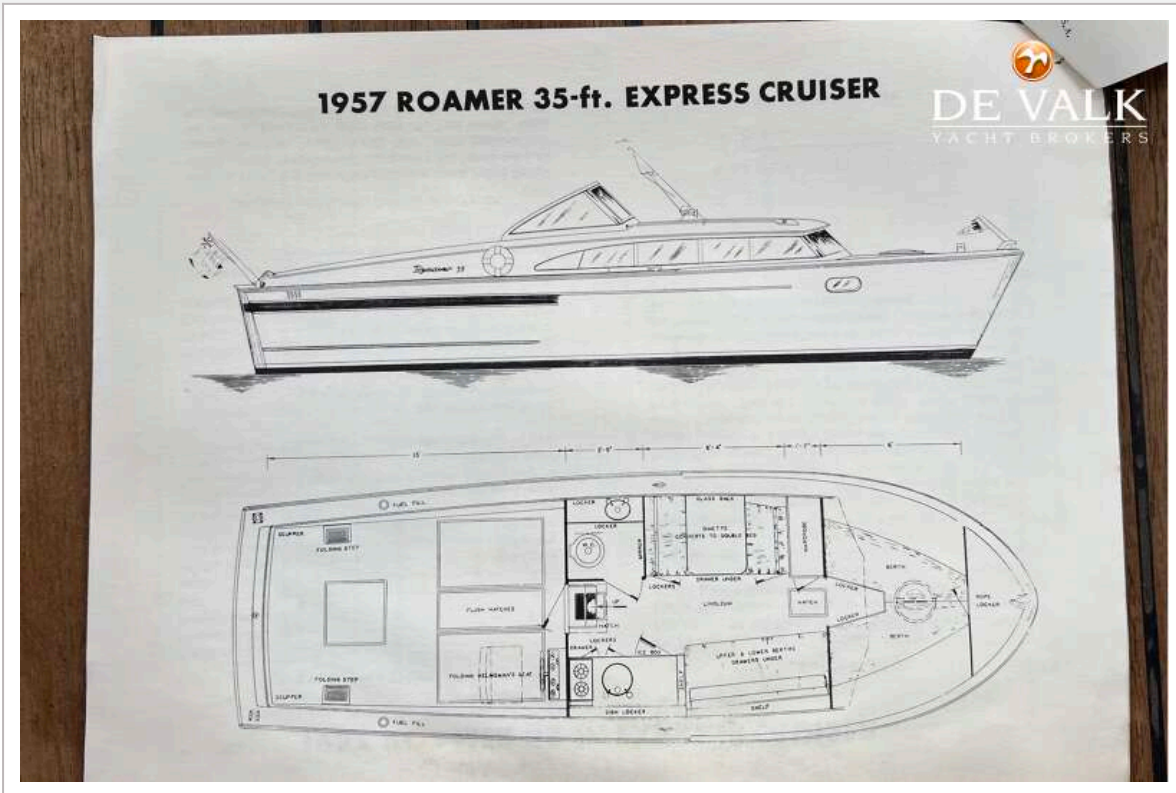

BUILT FOR A LIFETIME—The Roamer hull is made of double strength alloy steel—twice as strong as ordinary steel, and four times more corrosion-resistant than carbon steel. This rugged, heavy gauge steel plate is welded to steel ribs, giving you a structural combination of tremendous strength.

REDUCES MAINTENANCE BUDGET—A once-a-year coat of paint is usually all the Roamer hull needs to be kept in top condition. Its exterior is fully protected against rust and corrosion by multiple applications of Roamer's exclusive Chemtastic coating. A special Bitumastic compound on the inside permanently seals the dry, water-tight bilge and prevents sweating.

SILENCE THAT'S GOLDEN—Every inch of the Roamer's hull interior is insulated to deaden sound and vibration, assuring smooth, quiet running. An air-tight bulkhead, separating engine compartment from cabin, minimizes operating noises in the cabin. And Roamer's engines are rubber mounted for quiet, vibration-free performance.

SPECIFICATIONS

Beam O. A. 11' 4"
 Freeboard - Fw'd. 4' 6"
 Freeboard - Aft 3' 11"
 Draft 2' 9"
 Headroom - Cabin 6' 4"
 Sleeping Capacity 6
 Fresh Water Capacity 45 gallons
 Fuel Capacity 160 gallons
 Propeller Shafts Stainless steel
 Steering Direct action gear & tie-rod
 Hull - Special Alloy Steel, Hi-Strength, Corrosion Resistant
 Sides11 ga. steel plating
 Bottom (Modified "V") 10 ga. steel plating aft, 3/16" fw'd.
 Hull Exterior - Finish
 Prime Coats Special anti-corrosion process
 Finish Coats Bottom anti-fouling paint, sides Yacht semi-gloss paint
 Hull Interior - Finish Special bitumastic insulation covered with non-bleeding aluminum paint
 Cockpit Floor 3/4" vertical grain fir, varnished, sound insulated underside
 Decks Steel plating covered with non-skid deck paint
 Cabin Sides Varnished mahogany
 Ventilating Windshield-Flying Bridge Varnished mahogany, bright metal molding
 Cabin and Forward Stateroom Varnished mahogany, blond satin finish
 Power Twin engines (Chris-Craft, Chrysler, or Cadillac) with reduction gears

APPROVED ACCESSORIES - FACTORY INSTALLATION
