

VARNEBANK 79F

VAN DE MAKELAAR

VARNEBANK (1965/2007) is a heavy, seaworthy, long-range expedition yacht. She was originally built in Holland for fishing in the North Sea and was later converted to a long-range yacht capable of crossing any ocean. All of the conversion work was done in Holland from 2004 to 2007 where she was totally rebuilt. An absolutely stunning and very capable explorer with a superb layout for long-range expeditions. Highly maintained and turn key ready. Located in CA, USA.
