# CUSTOM ALUMINIUM KETCH

## VAN DE MAKELAAR

De door Oelmann ontworpen ketch, gebouwd door Deters Bremen in 1990, heeft een hoogwaardige aluminium romp, wat zorgt voor uitzonderlijke sterkte, duurzaamheid en veiligheid voor serieuze bluewater cruises. De ketch-tuigage biedt veelzijdigheid, gebalanceerde zeilvoering en efficiënte prestaties onder alle omstandigheden, waardoor het ideaal is voor lange afstandsreizen of zeilen met weinig bemanning. Het vakmanschap is duidelijk zichtbaar in de tijdloze lijnen en de minutieus afgewerkte interieurs, die comfort, bruikbaarheid en een vleugje luxe bieden. Perfect voor veeleisende zeilers die op.

*Willem Koopmans*
