# OCEAN STAR 51.2

## VAN DE MAKELAAR

The 2006 Ocean Star 51.2 is a solid, spacious and capable Greek-built cruising yacht, designed primarily for comfort, safety and long-distance sailing rather than pure racing performance. With her generous interior, strong construction, good stability and practical layout, she is particularly well suited to Mediterranean family cruising or extended liveaboard use. She is not as light or fast as many modern performance cruisers, and at 20 years old her condition and maintenance history are far more important than her original specifications, but a well-maintained example can still be an excelle
